GENERAL INFORMATION

Overview

Project number

B05

Name of Experiment / Acronym / Number

Variability in speech planning

Involved persons

Pamela Fuhrmeister, Shereen Elbuy

PI or responsible person (head of the study)

Audrey Bürki

Subject area

Cognitive science, Psycholinguistics, Speech production

Method / Type of data

Behavioral, Eye-Tracking, EEG

Participants (of the study)

Young adults, older adults, native speakers of English and German

Short description (of the study)

This study investigates the influence of the availability of cognitive resources to variability in speech planning. Participants will produce words and short phrases in a dual-task paradigm to manipulate the availability of cognitive resources and to test its influence on response times in a speech production task.

Comments (optional)

-

Data Management Requirements

Are there requirements regarding the data management from your scholarly / scientific community?

yes

If yes, what are the requirements?

- DFG Guidelines on the Handling of Research Data
- Handlungsempfehlungen zum Umgang mit Forschungsdaten University of Potsdam
- Technische und organisatorische Maßnahmen (TOM) gemäß Art. 32 Abs. 1 DSGVO
- Data Management in Psychological Science

Financial Support

Who is funding the project?

DFG - Deutsche Forschungsgemeinschaft e.V. (German Research Foundation)
- <https://www.dfg.de/en/>

.....

In which funding line and / or which funding program is the project funded?

Collaborative Research Centre 1287 - Project number 317633480

.....

.....

DATASET INFORMATION

Data Origin

Is the dataset being created or re-used?

created

If re-used, who created the dataset and under which address, PID or URL is the data set available?

-

Data Collection

When does data collection start? (approximately / tentatively)

03.10.2022

When does data collection end? (approximately / tentatively)

01.05.2025

Data Handling

Where is the dataset stored during the project?

- CRC file server
- Box.UP university cloud
- researcher's computer
- computer in the laboratory

.....

.....

If data is stored on lab or personal computers, please describe the backup strategy.

Data will be backed up onto a hard drive at regular intervals and will also be copied to the CRC server regularly.

Which file formats are used?

.pdf, .txt, .m, .py, .R, .Rmd, HTML, .docx, .pptx, ASCII, .sh, .set, .fdt, .csv, .xlsx, .wav, .png, .jpg.

Which measures of quality assurance are taken for this dataset?

control groups, use common file formats, good documentation.

Data Analysis

When does data analysis start? (approximately / tentatively)

01.07.2021

When does data analysis end? (approximately / tentatively)

01.05.2025

.....

.....

Data Reuse

Which individuals, groups or institutions could be interested in re-using this dataset? What consequences does the reuse potential have for the provision of the data later?

Other research groups investigating similar questions could be interested in re-using this data set. A potential consequence is that we make progress in our field faster, as other groups will have access to data which could be used to inform priors in Bayesian analyses, be included in meta-analyses, or be re-analyzed with different analysis techniques or different questions in mind. All data that is made publicly available will be pseudonymized and will not be identifiable to protect participants' privacy.

.....

.....

LEGAL AND ETHICS

Personal Data

Does this dataset contain personal data?

no

If yes, are these data anonymised?

-

Property Rights

Does the project use and/or produce data that is protected by intellectual or industrial property rights?

no

If yes, please explain which data protected by intellectual or industrial property rights?

-

.....

.....

PUBLICATION

Publishing or Sharing Data

Will this dataset be published or shared?

yes

If yes, the principal investigator of the study ensured that the consent form / subject information sheets support publishing of the data?

-

If yes, under which terms of use or license will the dataset be published or shared?

CC BY (Attribution)

If yes, when will the data be published?

when the paper is published

If no, please explain why not. Please differentiate between legal and contractual reasons and voluntary restrictions.

-

.....

STORAGE AND LONG-TERM PRESERVATION

Archive

Does this dataset have to be preserved for long-term?

yes

How long does the data need to be stored?

The DFG expects primary data that is the basis of a publication to be stored in the researcher's own institution or an appropriate nationwide infrastructure long-term (for at least 10 years).

What are the reasons this dataset must be preserved for the long-term?

- Use in a publication / Evidence of good scientific practice
- Reuse (if anonymizable data) in subsequent projects or by others
- Legal obligations
- Documentation because it is socially relevant
- Self-commitment
- Evidence of good scientific practice
- DFG requirements

.....

Where will the data (including metadata, documentation, and relevant code) be stored or archived after the end of the project?

- CRC 1287 File-Server
- OSF
- Research Data Server from Project IN-FDM-BB (a.t.m. not available)
