GENERAL INFORMATION

Overview

Project number

C05

Name of Experiment / Acronym / Number

ATB constructions in 4 Niger Congo languages

Involved persons

-

PI or responsible person (head of the study)

Doreen Georgi

Subject area

linguistics, morphology, syntax, focus marking strategies

Method / Type of data

elicitations with a native speaker; the collected data and judgments were checked with 4 more native speakers in Nigeria via email

.....

Participants (of the study)

- 3 native speakers of Duala
- 2 native speakers of Bùlì
- 3 native speakers of Ewe
- 5 native speakers of Kitharaka

Short description (of the study)

The native speakers were (separately) interviewed by the responsible person in online interviews. The researcher elicited sentences; the informants also had to translate sentences from English (returned later in written form) and provide grammaticality judgements on sentences from the literature as well as on sentences created by the researcher.

Comments (optional)

-

Data Management Requirements

Are there requirements regarding the data management from your scholarly / scientific community?

yes

If yes, what are the requirements?

- DFG Guidelines on the Handling of Research Data
- Handlungsempfehlungen zum Umgang mit Forschungsdaten University of Potsdam
- Technische und organisatorische Maßnahmen (TOM) gemäß Art. 32 Abs. 1 DSGVO

.....

.....

Financial Support

Who is funding the project?

DFG - Deutsche Forschungsgemeinschaft e.V. (German Research Foundation)
- <https://www.dfg.de/en/>

In which funding line and / or which funding program is the project funded?

Collaborative Research Centre 1287 - Project number 317633483

.....

.....

DATASET INFORMATION

Data Origin

Is the dataset being created or re-used?

created

If re-used, who created the dataset and under which address, PID or URL is the data set available?

-

Data Collection

When does data collection start? (approximately / tentatively)

May 2017

When does data collection end? (approximately / tentatively)

September 2018

Data Handling

Where is the dataset stored during the project?

- CRC file server
- Box.UP university cloud
- researcher's computer
- computer in the laboratory

.....

.....

If data is stored on lab or personal computers, please describe the backup strategy.

- The data is stored in a cloud via the backup service Idrive.
- The university cloud and CRC File Server is backed up regularly.

Which file formats are used?

- data collected in elicitations + data cited in the paper from the literature: pdfs
- prefinal version of the published paper: pdf

Which measures of quality assurance are taken for this dataset?

data collected in elicitations with several native speakers:

we elicited minimal pairs as much as possible such that the sentences only differ in the factor under investigation.

Data Analysis

When does data analysis start? (approximately / tentatively)

-

When does data analysis end? (approximately / tentatively)

-

.....

.....

Data Reuse

Which individuals, groups or institutions could be interested in re-using this dataset? What consequences does the reuse potential have for the provision of the data later?

-

.....

.....

LEGAL AND ETHICS

Personal Data

Does this dataset contain personal data?

no

If yes, are these data anonymised?

-

Property Rights

Does the project use and/or produce data that is protected by intellectual or industrial property rights?

no

If yes, please explain which data protected by intellectual or industrial property rights?

-

.....

.....

PUBLICATION

Publishing or Sharing Data

Will this dataset be published or shared?

yes

If yes, the principal investigator of the study ensured that the consent form / subject information sheets support publishing of the data?

yes

If yes, under which terms of use or license will the dataset be published or shared?

CC0 (Public Domain)

If yes, when will the data be published?

when the paper is published

If no, please explain why not. Please differentiate between legal and contractual reasons and voluntary restrictions.

-

.....

STORAGE AND LONG-TERM PRESERVATION

Archive

Does this dataset have to be preserved for long-term?

yes

How long does the data need to be stored?

The DFG expects primary data that is the basis of a publication to be stored in the researcher's own institution or an appropriate nationwide infrastructure long-term (for at least 10 years).

What are the reasons this dataset must be preserved for the long-term?

- Use in a publication / Evidence of good scientific practice
- Reuse (if anonymizable data) in subsequent projects or by others
- Legal obligations
- Documentation because it is socially relevant
- Self-commitment
- Evidence of good scientific practice
- DFG requirements

.....

Where will the data (including metadata, documentation, and relevant code) be stored or archived after the end of the project?

- CRC 1287 File-Server
- OSF
- Research Data Server from Project IN-FDM-BB (a.t.m. not available)
