GENERAL INFORMATION

Overview

Project number

B04

Name of Experiment / Acronym / Number

Turkish Acceptability Judgment 1

Involved persons

Serkan Uygun

PI or responsible person (head of the study)

Claudia Felser

Subject area

Subject verb agreement marking in Turkish

Method / Type of data

Acceptability ratings data on a five point scale

Participants (of the study)

- 40 healthy Turkish adults as control group
- 48 healthy Turkish German bilingual adults as Turkish heritage speakers

Short description (of the study)

Investigating the acceptance of third person plural suffix in past tense with two groups to explore if early AoA of German affects the ratings and variability in heritage speakers and using Gradient Symbolic Computation to capture between group differences in the weights of the relative constraints

Comments (optional)

-

Data Management Requirements

Are there requirements regarding the data management from your scholarly / scientific community?

yes

If yes, what are the requirements?

- DFG Guidelines on the Handling of Research Data
- Handlungsempfehlungen zum Umgang mit Forschungsdaten University of Potsdam
- Technische und organisatorische Maßnahmen (TOM) gemäß Art. 32 Abs. 1 DSGVO

Financial Support

Who is funding the project?

DFG - Deutsche Forschungsgemeinschaft e.V. (German Research Foundation)
- <https://www.dfg.de/en/>

.....

In which funding line and / or which funding program is the project funded?

Collaborative Research Centre 1287 - Project number 317633533

.....

.....

DATASET INFORMATION

Data Origin

Is the dataset being created or re-used?

created

If re-used, who created the dataset and under which address, PID or URL is the data set available?

-

Data Collection

When does data collection start? (approximately / tentatively)

February 2018

When does data collection end? (approximately / tentatively)

June 2018

Data Handling

Where is the dataset stored during the project?

- CRC file server
- Box.UP university cloud
- researcher's computer
- computer in the laboratory

.....

If data is stored on lab or personal computers, please describe the backup strategy.

- Data from personal computer is backed up on an external hard drive
- Data is also stored on lab computer
- Data will be stored on PRIM server (internal documentation)
- Data will also be stored on OSF platform (external documentation)

Which file formats are used?

- RT and continuation choice data (raw and processed): *.txt and excel files
- R scripts and code

Which measures of quality assurance are taken for this dataset?

- The experiment included fillers to check if participants did the task attentively
- Data are analyzed for outliers and biases in the responses (by the person who analyzed the data)
- We made sure that all bilinguals acquired Turkish from birth and had a high level of Turkish proficiency

Data Analysis

When does data analysis start? (approximately / tentatively)

Fall 2018

When does data analysis end? (approximately / tentatively)

Fall 2018

.....

.....

Data Reuse

Which individuals, groups or institutions could be interested in re-using this dataset? What consequences does the reuse potential have for the provision of the data later?

-

.....

.....

LEGAL AND ETHICS

Personal Data

Does this dataset contain personal data?

no

If yes, are these data anonymised?

-

Property Rights

Does the project use and/or produce data that is protected by intellectual or industrial property rights?

no

If yes, please explain which data protected by intellectual or industrial property rights?

-

.....

.....

PUBLICATION

Publishing or Sharing Data

Will this dataset be published or shared?

yes

If yes, the principal investigator of the study ensured that the consent form / subject information sheets support publishing of the data?

yes

If yes, under which terms of use or license will the dataset be published or shared?

CC0 (Public Domain)

If yes, when will the data be published?

when the paper is published

If no, please explain why not. Please differentiate between legal and contractual reasons and voluntary restrictions.

-

.....

STORAGE AND LONG-TERM PRESERVATION

Archive

Does this dataset have to be preserved for long-term?

yes

How long does the data need to be stored?

The DFG expects primary data that is the basis of a publication to be stored in the researcher's own institution or an appropriate nationwide infrastructure long-term (for at least 10 years).

What are the reasons this dataset must be preserved for the long-term?

- Use in a publication / Evidence of good scientific practice
- Reuse (if anonymizable data) in subsequent projects or by others
- Legal obligations
- Documentation because it is socially relevant
- Self-commitment
- Evidence of good scientific practice
- DFG requirements

.....

Where will the data (including metadata, documentation, and relevant code) be stored or archived after the end of the project?

- CRC 1287 File-Server
- OSF
- Research Data Server from Project IN-FDM-BB (a.t.m. not available)
