DATA MANAGEMENT PLAN

CRC 1287 | 2025 | Phase 2

Project C02

TABLE OF CONTENTS

GENERAL INFORMATION

Overview

Project number

C02

Name of Experiment / Acronym / Number

WPB 1 - Bare Nouns

Involved persons

Giuliano Armenante

PI or responsible person (head of the study)

Malte Zimmermann

Subject area

Definiteness

Method / Type of data

Fieldwork data, experimental data

Participants (of the study)

Language consultants, experiment participants from students of University of Potsdam

Short description (of the study)

The studies in this project investigate the conditions licensing article drop for single count nouns, with focus on goal-achieving contexts.

Comments (optional)

-

Data Management Requirements

Are there requirements regarding the data management from your scholarly / scientific community?

yes

If yes, what are the requirements?

- DFG Guidelines on the Handling of Research Data

- Handlungsempfehlungen zum Umgang mit Forschungsdaten University of Potsdam

- Technische und organisatorische Maßnahmen (TOM) gemäß Art. 32 Abs. 1 DSGVO

- Data Management in Psychological Science

Financial Support

Who is funding the project?

DFG - Deutsche Forschungsgemeinschaft e.V. (German Research Foundation) - https://www.dfg.de/en/

In which funding line and / or which funding program is the project funded?

Collaborative Research Centre 1287 - Project number 317633480

DATASET INFORMATION

Data Origin

Is the dataset being created or re-used?

reused

If re-used, who created the dataset and under which address, PID or URL is the data set available?

Fieldwork data and experiment data involve new data, collected through fieldwork/online experiment. The BN_Ger file involves re-used data from corpus (as specifically indicated).

Data extracted from the German corpus DeTenTen10 through https://www.sketchengine.eu/.

Data Collection

When does data collection start? (approximately / tentatively)

September 2023

When does data collection end? (approximately / tentatively)

May 2025

Data Handling

Where is the dataset stored during the project?

- CRC file server

- Box.UP university cloud

- researcher's computer

- computer in the laboratory

If data is stored on lab or personal computers, please describe the backup strategy.

University server, external hard drives.

Which file formats are used?

xlsx, pdf, text, md, R, png, js, css, html, wav,

Which measures of quality assurance are taken for this dataset?

Sentences for fieldwork sentences were constructed with the help of native speakers. Inconclusive judgments were double checked with an additional speaker. Empirical findings were presented in several international conferences. The design of the study "Boris Becker" was refined through multiple presentations in lab meetings and conferences. The items were proofread by a native speaker. Empirical findings were reviewed and discussed in lab meetings.

Data Analysis

When does data analysis start? (approximately / tentatively)

November 2024

When does data analysis end? (approximately / tentatively)

May 2025

Data Reuse

Which individuals, groups or institutions could be interested in re-using this dataset? What consequences does the reuse potential have for the provision of the data later?

Linguists, language teachers.

LEGAL AND ETHICS

Personal Data

Does this dataset contain personal data?

yes

If yes, are these data anonymised?

psedonyzed only

Property Rights

Does the project use and/or produce data that is protected by intellectual or industrial property rights?

no

If yes, please explain which data protected by intellectual or industrial property rights?

-

PUBLICATION

<u>Publishing or Sharing Data</u>

Will this dataset be published or shared?

yes

If yes, the principal investigator of the study ensured that the consent form / subject information sheets support publishing of the data?

yes

If yes, under which terms of use or license will the dataset be published or shared?

CC BY (Attribution)

If yes, when will the data be published?

when the paper is published

If no, please explain why not. Please differentiate between legal and contractual reasons and voluntary restrictions.

-

STORAGE AND LONG-TERM PRESERVATION

<u>Archive</u>

Does this dataset have to be preserved for long-term?

yes

How long does the data need to be stored?

The DFG expects primary data that is the basis of a publication to be stored in the researcher's own institution or an appropriate nationwide infrastructure long-term (for at least 10 years).

What are the reasons this dataset must be preserved for the long-term?

- Use in a publication / Evidence of good scientific practice

- Reuse (if anonymizable data) in subsequent projects or by others

- Legal obligations

- Documentation because it is socially relevant

- Self-commitment

- Evidence of good scientific practice

- DFG requirements

Where will the data (including metadata, documentation, and relevant code) be stored or archived after the end of the project?

- CRC 1287 File-Server

- OSF

- Research Data Server from Project IN-FDM-BB (a.t.m. not available)
